5D – Moksha Reddy, Shushanth, Sujal Gowda

Events

07/07/2024 : LAR activity 1 – English Rhapsody

29/07/2024 : LAR competition- Scene stealers

5/07/2024 : Field Trip

12/07/2024 : Talent week – Starbust Showcase

Important Dates / Holidays

15-08-2024- Independence Day

16-08-2024 - Varamahalakshmi

Book Buzz

“Reading not only educates, but is relaxing and allows you to feed your imagination - creating beautiful pictures from carefully chosen words”

When students chose a book in a library on their own the joy of freedom to choose a book is something beyond words to explain and that exactly what the 5th graders experienced during their library session in the month of July 2024. They read different books penned by authors across the globe to name a few, Ruskin Bond, J K Rowling, Sudha Murty, Roald Dahl, Deepak Dalal, David Walliams and many more.

Classroom Scoop

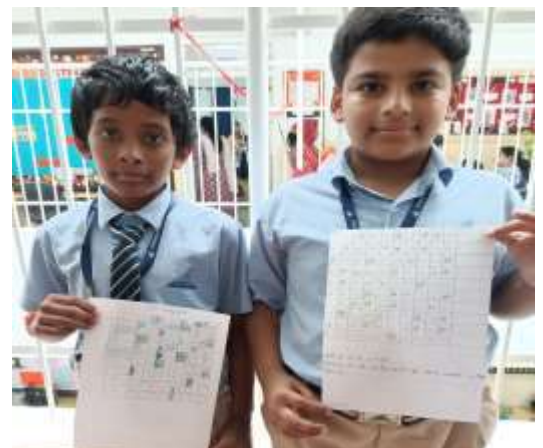

Math- LCM by Grid: -

The aim of the lab activity is to understand the concept of LCM using grid. After learning the concept, the students made grid of 10 rows and 10 columns writing 1 to 100 in it. Students had to find the LCM of 3, 6 and 8 on A4 sheet using different colours to highlight the multiples of the given numbers. Students displayed their best outcome through this activity.

LAR – To enhance the reading habits students were asked to illustrate any three fictional characters from the books they have read and describe them.

SST – The students of Grade 5 used their knowledge about Winter and Summer Solstices and Equinoxes and developed a project on the same supported by creative diagrams and facts. Their interest and involvement in the activity could be seen in their presentation of work.

LAR Competition- Scene stealers - 29/07/2024

Grade 5 students showcased their creativity and team work through various role plays of their favourite fictional characters. It was a rewarding experience that emphasizes the importance of communication and imagination in learning. They participated with full enthusiasm.

Beyond Classroom

07/07/2024: LAR Activity – English Rhapsody

The students of Grade 5 were totally excited to enact their favourite character from the books they have read. It helped them to express their ideas and feelings in a relaxed environment. The students who were not prepared were also motivated to participate. While some students came dressed as the character, some excelled in dialogue delivery and others in acting!!! It reflected their creativity, and the final outcomes were splendid and spectacular. It was indeed gratifying to see their enthusiasm.

10/07/2023 : Field Trip

Grade 5 students visited the Bengaluru Traffic Management Center to learn about the operational process of traffic management and observe them in action firsthand.

Students witnessed the monitoring of real-time traffic conditions through CCTV cameras and sensors.

They saw how operators respond to incidents, manage traffic signals, and coordinate with emergency services.

They also learned about the use of intelligent transportation systems (ITS) and data analytics to optimize traffic flow.

Talent fest- Starbust Showcase– 12.7.24

Everyone has talent. What is rare is the courage to showcase it.

Presidency School R.T. Nagar organized Extraordinaire – Talent fest in the campus to search genius and experts in various fields. Students participated in different events like TED X speaker, Solo instrumental, Mono acting, solo mimic, open mic poetry, texture art, Mime, Juggling and balancing act, poster making, voice over dubbing, gift wrapping, Fashion show etc. Entire school was mesmerized with the vibrant and enormous expertise. A talent show provides students an opportunity to show case their talent in any field. It not only helps the participants to show their abilities but also motivates other students, to come up front and show their secret potential. The talent shows indeed proved to be a wonderful platform for the students to discover their hidden talents.

The talented students from grades 3 to 8 showcased their hidden talent with massive array of events.

Word Wall

Factors, Multiples, prime and composite numbers, prime factorization, divisibility test
Nimble, scowl, crate, amplify stationary, swarmed, cramped, silverback, justice, grunt, tag, gorilla, Communicable diseases, Vaccination, Element, Compound, Interchangeability

Kind word for the day:

Please, excuse me, generous, thank you, sorry.

Children were encouraged to use these words daily with peers and their families.

Parent Support

Dear Parents,

Parenting Your School-Age Child

What You Can Do

Model the behavior you want to see. Your children are watching and learning from you. Meet your responsibilities, follow house rules, and communicate with respect.

- Make a few important rules and enforce them every time. Remember, children want freedom, so give them choices in smaller matters (e.g., clothing, room decorations).
- Talk to children about what you expect. Post rules and routines where everyone can see them. Fewer “grey areas” mean less to argue about.
- Support their growing bodies. Children this age still need nutritious meals (especially breakfast) and 10 hours of sleep each night.
- Limit time spent watching TV, playing video games, or using the computer. Monitor Internet use for safety, and encourage your children to participate in hobbies and sports.
- Be involved with your children’s school. Talk to their teachers and attend parents’ night and school conferences. Show that school is important to you by providing a quiet space for homework, volunteering in your child’s school, and celebrating your child’s hard work.
- Offer support and understanding when your child has problems with peers. Explore ways to resolve conflicts, but do not interfere. If your child is being bullied at school, alert school staff and work with them to keep your child safe.
- Don’t wait for your children to learn from peers. Educate yourself and talk to your children about your values. Help them practice ways to resist peer pressure.

Remember: Talk to your children, and listen to what they have to say. School age children may sometimes act like they don’t care what their parents say, but they still want your love, attention, and guidance!
