

Pre K - JUNE 2024

Kinder zine

A kaleidoscope of childhood

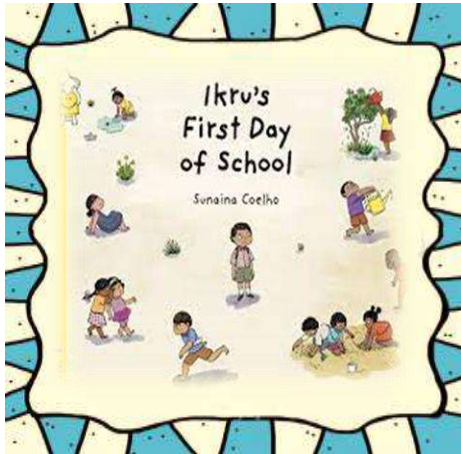

Every week, one child is selected as the star of the week who is treated specially throughout the week. Each day of the week consisted of an exciting event or activity to honour him or her. This was a great way for other classmates to know S Adith and Muhammed Yusuf Kareem to boost their self-esteem.

Book Buzz

About the book-Ikru's very first day at school be like

This heart- warming wordless book brings alive the unexpected delights and quiet fears of a child's first experience of going to school

Standing Line

Sleeping Line

Writing starts with scribbling and drawing, then moves on to forming letters and words. It is a complex skill that develops over time. Learning strokes ensures that the child starts to recognize the strokes that make up new letters that they encounter. Standing Line and Sleeping Lines were introduced to the students in a fun filled way, with activities like rava tracing, clay play, etc.

Early
Literacy
Activity

Early Numeracy

Colour Red

Children love counting and it's important your child gets used to numbers because these lead on to most other mathematics skills. Our little tots can identify number 1 and can associate value with the corresponding number. They can independently trace number 1.

Learning shapes not only helps children identify and organize visual information, it helps them learn skills in other curriculum areas including reading, math, and science. Little tots can trace and name the shape circle.

Shape Circle

All About Me

EVS

When children learn something on their own, they gain a sense of ownership for their work. Self-learning is an important skill for children as they journey through education and beyond to adulthood, building independence. Name play in school also has many cognitive benefits which include the ideals that recognizing one's name helps them feel important. Children eagerly awaited their turns to tell their names to their friends. They also learned about the different body parts and its uses.

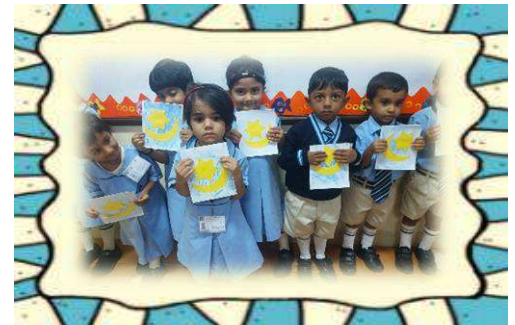

Art and Craft

Art and craft is so much fun! It also improves the eye-hand coordination. This is an important as it strengthens the fine motor muscles and helps the students develop better control. Children made tie for their dad, learned about finger dabbing. Leaf printing also allowed the children to explore and experiment different size and shape of leaves that grow in the locality and they were excited to see the prints each one made on their books.

PE

Sports give a child the chance to learn about being part of a team, winning well and bouncing back from a loss. Sports also teaches children about how important it is to work hard, even if this doesn't always mean winning. It is important to remember that the attitude and behaviour taught to children in sports carry over to adult life.

Music and Movement

Description Music and movement provide children with so many benefits. They help children develop skills such as cognitive growth, problem-solving, self-expression and social development. A child's learning is incomplete without music and movement in early childhood education.

Carrying the Mat

Montessori

Description- Beginning at an early age, Montessori nurtures order, concentration, and independence. Intentional classroom design, materials, and daily routines support the student's ability to educate one's self, and to think about what one is learning. Exercises of practical life like rolling and unrolling a mat, carrying a tray was introduced to the children.

Green Day

Theme: Green Day

Participants: Students of Kindergarten

Date: 14-06-2024

Green day celebration was organised to increase awareness among students about the importance of environment day and need to protect it. Kindergarten teachers and students were dressed in green colour and took part in various Environmentally-friendly activities like drawing, coloring etc. The air was filled with slogans and message like save water, plant trees and avoiding plastics etc. Our Principal Ms. Rekha Vinod added the finishing touch by addressing the Tiny Tots and emphasising upon the importance of afforestation, planting of trees and the need for everyone to put together their efforts and get in to action, in protecting our environment. The students of K2 went around the school campus with the message of how to save the environment followed by a group activity like colouring, sticking leaf and plastic on outline of the earth.

Eric Carl's Birthday

The day started with excitement all around as students were all set to celebrate their favorite author Eric Carl's birthday. The stage was all set with colorful balloons, streamers, curtains and various other decorations along with the puppet theatre. The program started with the introduction of the famous author and illustrator Eric Carl by K2 students. Then the tiny tots of Pre K were all set to wish him by singing the birthday song. Students were made aware with the well-known stories of the author through the display of his work. There were The Tiny Seed, Pancakes, Pancakes! The Boastful Fisherman, From Head to Toe & Polar Bear, Polar Bear What Did You Hear to name a few. Amongst these 'The Very Hungry Caterpillar' was picked for the puppet show.

The Puppet Theatre was set on the stage along with all the puppets and props required for the effective narration by the teachers. Students were thrilled to see the tiny caterpillar turn into oversized worm consuming variety of edibles like fruits, cheese, sausages, pickle etc. and then metamorphosed into beautiful butterfly. Soon the butterflies of K 2 were all around merrily dancing followed by the students of K 1 walking on the ramp as various characters came live from Eric Carl's storybooks. There was a Lion roaring, Elephant trumpeting, Zebra braying & Flamingo fluttering. Then entered the Monkey, Fish, Rooster and Cat to name a few. The show was concluded by doing the level wise group activity for the event. Pre-K students made a caterpillar collage, K1 made caterpillar craft using pipe cleaners and K 2 did the illustration of the story. The event reflected on the accomplishments of Eric Carl which motivate us to set new goals for students to achieve in the field of literature.
